Medical Physics Program Overview

Physics Residents (2015/2016): Justin D Philips, PhD, Joey Cheung, PhD, Dae Han, PhD

Designed to meet the requirements of the CAMPEP residency, our program aims to prepare our residents for a career in clinical medical physics with a strong academic emphasis. The UCSF program is part of the national match for application selection (www.aapm.org/cap ^[1]). The interview process is performed in accordance with the equal opportunity standards of UCSF and complies with UCSF GME rules governing the program.
